## Allowable Subject Matter

1. Claims 1-96 are allowed.

2. The following is an examiner's statement of reasons for allowance: the present invention features a method creating a cache hierarchy in a computer system.

Closed related art:

US 6,823,377 (WU et al) teaches arrangements and methods for latencysensitive hashing for collaborative web caching.

Chiang et al., "On Request Forwarding for Dynamic Web Caching Hierachies", 2000, IEEE, pp. 262-269.

However, none of the priort art of record teaches or suggests:

creating a software cache hierarchy having at least two software caches that are interrelated to form the cache hierarchy, the at least two

software caches including at least a first software cache and a second software cache, wherein the first and second software caches employ different hashing techniques for mapping an address into the first and second software caches.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
